

Entry Requirements

- Immunization Documentation
- Physical Examination by Physician/Nurse Practitioner

Per New Jersey State Law and Ocean Township School District Policy, documentation of immunizations is requested at the time of your child's registration. If you do not have this documentation today, please send it to the nurse in your child's assigned school.

All new students in grades Pre-K – 4th are required to have an entry physical examination by their physician or nurse practitioner no more than 365 days prior to entry and must state what, if any, modifications are required for full participation in the school program. **You must notify the school nurse if you cannot schedule this exam prior to your child's first day of school. The nurse will need to know the date your child is scheduled for the exam.**

If you do not have a physician or health insurance, please see the *reverse side* of this notice for a list of Health Centers that can provide assistance for satisfying this requirement.

The Health Office is closed during the summer break, for assistance during this time, please contact the main office of your child's school. You may return your child's physical form addressed to the attention of the nurse of your child's assigned school. Your child's registration will be complete once all required paperwork is submitted.

The nurses look forward to working with you during the school year.
