

NJ SCI Pilot Survey

Students Grades 6-12 Data Report

Ocean Township High School

May 2022

This report contains data from the New Jersey School Climate Improvement (NJ SCI) Survey. Items in the survey are organized into domains, or main conceptual areas of school climate. Means and response distributions are available for each domain as well as individual items within domains. Item level means represents the average score on an item for all respondents that answered that item. Item level distributions represent the number and percentage of respondents that selected each available response option (e.g., strongly disagree, disagree, agree, strongly agree) for an item. Total number of respondents in each item may vary if respondents skip (an) item(s) or select "Not Applicable." Overall means for each domain are calculated by taking the average of means from individual items within a respective domain. Similarly, overall response distributions are calculated by taking the average percentage distribution for individual items within a respective domain. Please note that mean scores on the domain and item-level pages are ranked highest to lowest.

** = Item includes a "not applicable" option and may have a lower response number compared to other items.*

Stakeholder Summary

Overall	
Overall	803
By: Grade	
Grade 6	0
Grade 7	0
Grade 8	0
Grade 9	209
Grade 10	207
Grade 11	178
Grade 12	145
Not Specified	64
By: Gender	
Combined totals here may exceed overall number of respondents for this stakeholder as more than one option may be selected.	
Boy/Male	349
Girl/Female	381
I use a different word(s)	18
Non-binary	38

By: Gender
Combined totals here may exceed overall number of respondents for this stakeholder as more than one option may be selected.

Transgender 24

By: Race/Ethnicity
Combined totals here may exceed overall number of respondents for this stakeholder as more than one option may be selected.
