Section: Plan for ARP ESSER Funds

Status: Approved

Group:

Agency: York Co School of Technology

### Section III: Using ARP ESSER Funds to Plan for Safe, In-Person Instruction

In this third section, CTCs are asked to reflect on both the impacts and needs described in Section I and stakeholder engagement described in Section II to provide a description of the CTC plan for the use of ARP ESSER funds.

#### 7. Plan for Funds

How will the CTC spend its ARP ESSER funds as outlined in the fields below ? **(3,000 characters max)**

1. Continuity of Services: How will the CTC use ARP ESSER funds to sustain services to address students' academic needs; students' and staff social, emotional, and mental health needs; and student nutrition and food services?
2. Access to Instruction: How will the CTC use ARP ESSER funds to support the goals of increasing opportunity to learn and equity in instructional delivery? Consider regular attendance/chronic absenteeism data from the 2020-21 school year, including data disaggregated by student groups, in developing the response.

3. Mitigation Strategies: How will the CTC use ARP ESSER funds to support prevention and mitigation policies in line with the most up-to-date guidance from the Centers for Disease Control and Prevention (CDC) for the reopening and operation of school facilities and transportation services to effectively maintain the health and safety of students, educators, and other staff? Consider the LEA's Health and Safety Plan in developing the response.
4. Facilities Improvements: How will the CTC use ARP ESSER funds to repair and improve school facilities to reduce risk of virus transmission, address environmental health hazards, and/or improve ventilation? Consider the LEA's Health and Safety Plan in developing the response.
5. Other, i.e summer school, extended day, and staffing

Plan for Funds	Explanation
Facilities Improvements	1. Manufacturing and Transportation Academy by converting the workyard to a workspace under an Open Air Steel Structured Canopy/Pavilion. 2. Construction Academy by converting the exterior workyard to a workspace under an Open Air Steel Structured Canopy/Pavilion. 3. Construct an outdoor pavillion to enable students to eat outside during school breakfast and school lunch times.
